

The TJX Companies, Inc. Reports 28% Adjusted EPS Growth on \$25.9 Billion in Sales in Fiscal 2013; Announces New \$1.5 Billion Stock Repurchase Program; Plans 26% Increase in Dividend

February 27, 2013

FRAMINGHAM, Mass.--(BUSINESS WIRE)--Feb. 27, 2013-- The TJX Companies, Inc. (NYSE: TJX), the leading off-price retailer of apparel and home fashions in the U.S. and worldwide, today announced sales and earnings results for the fiscal year and fourth quarter ended February 2, 2013.

Net sales for the 53-week fiscal year were \$25.9 billion, a 12% increase over last year. Consolidated comparable store sales for the year on a 52-week basis increased 7% over the prior year's 4% increase. Net income for the 53-week fiscal year was \$1.9 billion and diluted earnings per share were \$2.55 compared to \$1.93 last year. Last year's results include a number of items (detailed under "Items Impacting Comparability" below) that impacted the comparability of earnings per share. Excluding these items, diluted earnings per share for the fiscal year increased 28% over the adjusted \$1.99 last year.

For the 14-week fourth quarter ended February 2, 2013, net sales were \$7.7 billion, a 15% increase over the prior year. Consolidated comparable store sales for the quarter on a 13-week basis increased 4% over the prior year's 7% increase. Net income for the 14-week fourth quarter was \$605 million and diluted earnings per share were \$.82, a 32% increase over last year's \$.62.

Carol Meyrowitz, Chief Executive Officer of The TJX Companies, Inc., stated, "The year 2012 was another great year for TJX on top of many great years! We achieved adjusted EPS growth of 28% on sales of nearly \$26 billion and consolidated comp store sales growth of 7%, marking the fourth consecutive year of very strong sales and double-digit EPS increases. Customer traffic was up across all of our divisions as our off-price shopping experience continued to resonate with customers, even with the growth in online shopping in the retail industry. Marmaxx, our largest division, continues to be very powerful with excellent performance of new T.J. Maxx and Marshalls stores as we expand into more rural markets as well as major cities. HomeGoods has taken hold as a shopping destination for exciting, quality product from around the world. TJX Canada delivered very strong results with Marshalls in Canada outperforming our expectations, and TJX Europe has regained its momentum and opens up enormous growth opportunity. We believe this all speaks to the staying power of our value proposition of extreme values on exciting fashions and brands. As large as we are, we have enormous store growth potential and are excited about the opportunity to leverage the success of our brick-and-mortar business with e-commerce over time. Our management team is focused on our four powerful divisions, and I am as confident as ever in our ability to continue driving profitable sales growth for many years to come. We are well on the road to being a \$40 billion-plus company!"

Increase in Shareholder Distributions

The Company also announced today its plan to repurchase approximately \$1.3 billion to \$1.4 billion of TJX stock during the fiscal year ending February 1, 2014. With \$925 million remaining at Fiscal 2013 year end under the Company's existing stock repurchase program, the Company's Board of Directors approved a new stock repurchase program that authorizes the repurchase of up to an additional \$1.5 billion of TJX common stock from time to time. The new authorization represents approximately 5% of the Company's outstanding shares at current prices. The new stock repurchase program marks the 14th program approved by the Board since 1997. Over this period, the Company has spent approximately \$11.3 billion on the repurchase of TJX stock. In Fiscal 2013, the Company spent a total of \$1.3 billion to repurchase TJX stock, retiring 30.6 million shares. During the fourth quarter, the Company spent a total of \$350 million to repurchase TJX stock, retiring 8.1 million shares. Under the Company's repurchase plans, share repurchases may be made from time to time in market or private transactions and may include derivative transactions. The repurchase program announced today has no time limit and may be suspended or discontinued at any time.

The Company also intends to increase the regular quarterly dividend on its common stock to be declared in April 2013 and payable in June 2013 to \$.145 per share, subject to the approval of the Company's Board of Directors. This increase would represent a 26% increase in the current per share dividend and mark the 17th consecutive year that the Company has raised the dividend. Over this period of time, the Company's dividend has grown at a compound annual rate of 23%.

Carol Meyrowitz commented, "Our business continues to generate enormous amounts of excess cash and deliver superior financial returns for shareholders. In Fiscal 2014, we plan to continue to make investments to support our growth while returning excess cash to shareholders. Our capital spending plan includes investments in our supply chain and infrastructure, new stores, store remodels and e-commerce initiatives. Simultaneously, we plan to continue our large share buyback program, with \$1.3 billion to \$1.4 billion of repurchases planned for Fiscal 2014, and to significantly increase our regular quarterly dividend. All of this underscores our confidence in our ability to continue to deliver significant increases in sales, earnings, and cash flow, and generate superior financial returns."

Discontinuing Monthly Sales Reporting

The Company also announced today that beginning with the Fiscal 2014 second quarter, it will no longer report monthly sales, consistent with the retail industry trend. The Company will continue its current practices through the end of the Fiscal 2014 first quarter, reporting sales for February, March and April, and move to a quarterly reporting schedule thereafter. The Company believes that this is the right practice for TJX and its shareholders, reflecting the long-term approach it takes in planning and running its business as it continues on the path to becoming a \$40 billion-plus company.

Impact of Foreign Currency Exchange Rates

Changes in foreign currency exchange rates affect the translation of sales and earnings of the Company's international businesses into U.S. dollars for financial reporting purposes. In addition, ordinary-course, inventory-related hedging instruments are marked to market at the end of each quarter. Changes in currency exchange rates affect the magnitude of these translations and adjustments, and can have a material impact when there is significant volatility in currency exchange rates.

The movement in foreign currency exchange rates had a neutral impact on consolidated net sales growth for the full Fiscal 2013 year versus the prior year. The movement in foreign currency exchange rates had a 1 percentage point positive impact on consolidated net sales growth in the fourth quarter of Fiscal 2013 versus the prior year's fourth quarter. The impact of foreign currency exchange rates on earnings per share is discussed below under "Items Impacting Comparability."

A table detailing the impact of foreign currency on TJX pretax earnings and margins, as well as those of its international businesses, can be found in the Investor Information section of the Company's website, www.tjx.com.

Items Impacting Comparability

Certain items that impact the comparability of the full year to the prior year are detailed in the table below.

	Full Year	
	FY2013 (53 weeks)	FY2012 (52 weeks)
Reported EPS from continuing operations	\$2.55	\$1.93
<i>Impact of A.J. Wright Store Closings</i>	-	\$.04
<i>Store Conversion/Grand Re-Openings Costs</i>	-	\$.02
Adjusted EPS from continuing operations	\$2.55	\$1.99

Fiscal 2012 included first quarter costs associated with the A.J. Wright consolidation, primarily additional lease obligations for store closings and additional operating losses as well as the costs related to the conversion and grand re-opening of certain former A.J. Wright stores to T.J. Maxx, Marshalls and HomeGoods banners. (Reconciliations of Fiscal 2012 adjusted measures which exclude the A.J. Wright consolidation to GAAP measures are shown in the attached schedules.)

On a reported basis, diluted earnings per share for the full Fiscal 2013 year were \$2.55 compared to \$1.93 last year. On an adjusted basis, excluding the items detailed above, diluted earnings per share for the 53-week fiscal year represented a 28% increase over last year's adjusted \$1.99. The 53rd week in Fiscal 2013 also impacted the comparability of results. Excluding the approximately \$.08 benefit from the 53rd week and the items above, adjusted earnings per share on a 52-week basis were \$2.47, a 24% increase over the prior year's adjusted \$1.99.

For the full Fiscal 2013 year, foreign currency exchange rates had a neutral impact on earnings per share, compared with a neutral impact last year.

The 53rd week in Fiscal 2013 also impacted the comparability of results in the fourth quarter. On a reported basis, diluted earnings per share for the 14-week fourth quarter were \$.82, a 32% increase over \$.62 per share last year. Excluding the approximately \$.08 benefit from the extra week, adjusted earnings per share on a 13-week basis were \$.74, a 19% increase over last year. Foreign currency exchange rates had a \$.01 positive impact on earnings per share in the fourth quarter, compared with a neutral impact last year.

Margins

For the full year Fiscal 2013, the Company's consolidated pretax profit margin was 11.9%, up 1.2 percentage points over the prior year's adjusted margin. The increase was primarily driven by merchandise margin improvement, as well as expense leverage on the above-plan sales. The 53rd week in the Fiscal 2013 calendar positively impacted pretax margins by approximately 0.2 percentage points.

The gross profit margin for Fiscal 2013 was 28.4%, 1.0 percentage points above the adjusted margin in the prior year primarily driven by improved merchandise margins across all divisions coupled with buying and occupancy leverage. Selling, general and administrative costs as a percent of sales were 16.4%, a 0.1 percentage point improvement over the prior year's adjusted ratio. A number of items impacted SG&A costs during the year which partially offset the expense leverage on above-plan sales, including the Company's contribution to The TJX Foundation as well as two items recorded in the Fiscal 2013 third quarter: a non-cash charge for the cumulative impact of a correction to the Company's pension accrual for prior years and a non-operating charge due to the adjustment in the Company's reserve for former operations relating to closed stores.

For the fourth quarter of Fiscal 2013, the Company's consolidated pretax profit margin was 12.5%, up 1.2 percentage points over the prior year's pretax profit margin. This increase was primarily driven by improved merchandise margins with some expense leverage on the above-plan sales. The 53rd week in Fiscal 2013 positively impacted fourth quarter pretax margins by approximately 0.6 percentage points.

The gross profit margin for the fourth quarter of Fiscal 2013 was 28.6%, 1.4 percentage points above the prior year. The increase was primarily driven by merchandise margin improvement as well as expense leverage on the above-plan sales. Selling, general and administrative costs as a percent of sales were 16.0% in the fourth quarter, a 0.2 percentage point increase over the prior year's ratio of 15.8% largely due to the Company's contribution to The TJX Foundation, higher incentive compensation accruals with the Company's above-plan results and transaction expenses related to the Company's acquisition of Sierra Trading Post.

Inventory

Total inventories as of February 2, 2013, were \$3.0 billion, compared with \$3.0 billion at the end of the prior fiscal year. Consolidated inventories on a per-store basis, including the distribution centers, at February 2, 2013, were down 6% on both a reported and constant currency basis. The Company begins the new fiscal year with excellent inventory levels and is very well positioned to buy into the plentiful opportunities it sees in the marketplace and continue shipping fresh spring merchandise to its stores.

Full Year and First Quarter Fiscal 2014 Outlook

For the fiscal year ending February 1, 2014, the Company expects diluted earnings per share to be in the range of \$2.66 to \$2.78 versus \$2.55 in Fiscal 2013. Excluding the approximately \$.08 benefit from the 53rd week in the Company's Fiscal 2013 calendar, this guidance would represent an 8% to 13% increase over the adjusted \$2.47 in Fiscal 2013. This outlook is based upon estimated consolidated comparable store sales growth of 1% to 2%.

For the first quarter of Fiscal 2014, the Company expects diluted earnings per share to be in the range of \$.59 to \$.62, which would represent a 7% to

13% increase over last year's \$.55 per share. This outlook is based upon estimated consolidated comparable store sales growth of 0% to 2%.

The Company's earnings guidance for the first quarter and full year Fiscal 2014 assumes that currency exchange rates will remain unchanged from current levels.

Stores by Concept

During the fiscal year ended February 2, 2013, the Company increased its store count by a net of 145 stores to end the year with 3,050 stores. The Company increased square footage by 4% over the same period last year.

The TJX Companies, Inc. and Consolidated Subsidiaries
Notes to Consolidated Condensed Statements

1. During the fourth quarter ended February 2, 2013, TJX repurchased 8.1 million shares of its common stock at a cost of \$350 million. During the twelve months ended February 2, 2013, TJX repurchased 30.6 million shares of its common stock at a cost of \$1.3 billion, with \$225 million under the \$1 billion stock repurchase plan approved in February 2011, completing the plan, and \$1.1 billion under the \$2 billion stock repurchase program approved by the Board of Directors early in fiscal 2013. On February 5, 2013 the Board of Directors approved an additional \$1.5 billion stock repurchase program. TJX records the repurchase of its stock on a cash basis, and the amounts reflected in the financial statements may vary from the above amounts due to the timing of settlement of repurchases.
2. On December 21, 2012 TJX purchased Sierra Trading Post (STP), an off-price internet retailer, for approximately \$200 million, which is subject to customary post-closing adjustments. The operating results of STP since the date of acquisition are not material and have been included with our Marmaxx segment.
3. In the fourth quarter of fiscal 2011, TJX's Board of Directors approved the consolidation of its A.J. Wright division whereby 90 A.J. Wright stores were converted into T.J. Maxx, Marshalls or HomeGoods stores and the remaining 72 stores, its two distribution centers and home office were closed. The majority of the costs to consolidate A.J. Wright were recognized in the fourth quarter of fiscal 2011 but due to the timing of the store closings the additional closing costs (primarily lease related obligations) and additional operating losses were reported as a \$49 million A.J. Wright segment loss in the first quarter of fiscal 2012. In addition, the first quarter of fiscal 2012 included costs related to the conversion of the 90 A.J. Wright stores to other banners (primarily store payroll and occupancy costs during the approximate eight to twelve-week period in which the stores were closed) and costs related to grand opening events when the stores re-opened. These costs totaled \$20 million, with \$17 million reflected in the Marmaxx segment and \$3 million in the HomeGoods segment for the fiscal year ended January 28, 2012.

Reconciliation of GAAP and Non-GAAP measures

The Company reports its financial results in accordance with accounting principles generally accepted in the U.S. (GAAP). However, management believes that certain non-GAAP financial measures used in managing the business may provide users of this financial information additional meaningful comparisons between current results and results in prior operating periods and expectations for future periods. Management believes that these non-GAAP financial measures can provide additional meaningful reflection of underlying trends of the business because they provide a comparison of historical information that excludes certain items that impact overall comparability. Management also uses these non-GAAP financial measures in making financial, operating and planning decisions and in evaluating the Company's performance. The tables below provide supplemental non-GAAP financial data and corresponding reconciliations to GAAP financial measures. Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, the Company's reported results prepared in accordance with GAAP.

Results for Full Year FY12 reflect expenses related to the A.J. Wright consolidation, including closing costs and additional operating losses related to the closure of A.J. Wright stores not closed in Q4 FY11, the costs related to the conversion of the former A.J. Wright stores to other TJX banners and the costs related to grand re-opening events when the stores re-opened. The Marmaxx and HomeGoods segments reflect costs related to store conversions and grand re-openings.

The following tables show the reconciliation between Full Year FY12 GAAP measures and the adjusted non-GAAP measures which exclude these items.
